

# KABILAN R R

## OBJECTIVE

Motivated graduate seeking an entry-level role in a reputed company to apply my technical, problem-solving, and digital marketing skills including SEO, social media marketing, content strategy, and performance analytics, contribute to innovative solutions, and grow in a collaborative work environment.

## CERTIFICATIONS

1. C programming and data structure in cranes varsity.
2. JAVA programming and OOPS concept in cranes varsity.

## PROJECTS

### 1. HOSPITAL MANAGEMENT USING DATA STRUCTURE

- Developed a console-based hospital management system in C on Linux. Implemented features for adding, updating, deleting, and viewing patient records. Used file handling to store patient data for future retrieval.

MEMBERS - Kabilan, Mohamed Aslam, Mohindhar Raj and Karthikraja.

MY ROLE - Code Debugging.

### 2. AUTOMATIC DOOR OPENING SYSTEM

- Developed a door automation system using LPC2129, Keil, ultrasonic sensor, and servo motor. Controlled a servo motor to open and close the door based on the detection signal. Programmed in Embedded C for real-time, sensor based door control.

MEMBERS - Kabilan, Mohamed Aslam, Mohindhar Raj and Karthikraja.

MY ROLE - Sensor Module Developer.

### 3. ECOMMERCE WEBSITE - ONLINE MOBILE SHOP

- Designed and developed a static Ecommerce website utilizing HTML and CSS, and incorporating responsive design principles.
- Implemented intuitive navigation and user-friendly interface elements to enhance the shopping experience and drive engagement, resulting in increased user satisfaction and retention

### 4. PROSTATE CANCER CLASSIFICATION USING AN ENSEMBLE MODEL OF TRANSFORMER NET AND VGG

- Developed a prostate cancer detection model using Transformer Net and pre-trained. The two-step method extracts detailed tissue features and classifies cases as Class 0 (benign) or Class 1 (malignant). Trained on public datasets, it outperforms single-model approaches, improving medical diagnostics.

MEMBERS - Kabilan, Mohamed Aslam, Mohindhar Raj and Karthikraja.

MY ROLE - Integrating and Training the Models.
